razer blade pro windows 8.1 upgrade instructions

_____

Please follow the steps below to upgrade your Razer Blade from Windows 8.0 to Windows 8.1.

Step 1: Enter Bios mode by tapping at F1 or Del upon booting up system. In "Security" tab, ensure "Secure Boot" is enabled. Otherwise, select the option "Install All Factory Default Keys". "Save and Exit" Bios menu by pressing F4. Shutdown system completely.

Step 2: Perform Windows update and make sure to install KB2871389 – to enable system 'see' Windows 8.1 update link

Step 3: Before starting the upgrade please un-install the following applications and drivers and restart your Razer Blade when prompted to do so.

> **All NVIDIA applications \ Drivers**
> **All Killer Suite\Drivers**
> **Dolby Pro Surround Drivers**
> **Realtek HD Audio Drivers**
> **Intel HD graphic Drivers**
> **Razer Comms**

Step 4: Go to Store application and find the update for Windows 8.1. If Windows 8.1 update not shown in the store apps, please download Windows 8.1 Upgrade Assistant from Microsoft website -

Update to Windows 8.1
for free

Step 5: Click the link and select download to start upgrading your OS to Windows 8.1.
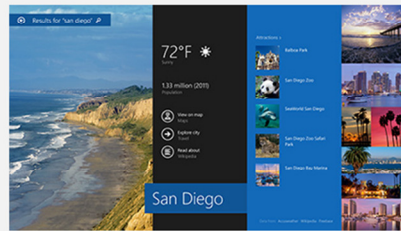

Windows 8.1

Download

After the download, you'll be asked to accept the Windows Software License Terms. If you do not accept, your prior version will be restored.
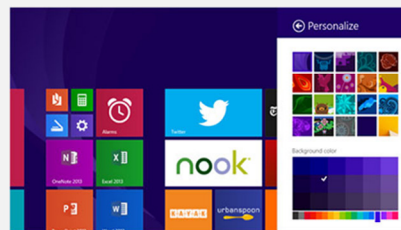

You can keep working while the update is downloading. We'll let you know when it's time for the next step.

Download size: 3.62 GB
Publisher: Microsoft
Copyright: 2013 Microsoft

Search everywhere
With Bing smart search, you can search once and see everything—from your PC, your apps, and the web—and act on search results right away. Play a song, call a friend, open an app, or get to your favorite site. Just search and do. (Certain features unavailable in some regions.)

Use it your way
On your Start screen, there are more tile sizes, more color options, and animated backgrounds. On your lock screen, you can see a slide show of your favorite pictures and take photos—all without unlocking your PC.

Get more apps
In the redesigned Windows Store, you'll discover apps built only for Windows, new community favorites, and personalized recommendations. This update also gives you some great new built-in apps like Reading List and Food + Drink. And now you'll be able to install your apps on all your tablets and PCs running the new Windows.

Always have your files
Save documents, photos, and other files to SkyDrive automatically so you'll have them anywhere—even on another PC or device. And they'll be safe if something happens to your PC.

Browse better
Internet Explorer 11 has faster load times, a full-screen experience that includes side-by-side browsing of sites, and real-time info from favorite sites delivered to your Start screen.

Step 6: Microsoft Store will start downloading the OS, the speed of the upgrade will depend on your network connection.

Installs

Windows 8.1
Downloading

Step 7: At this point Windows 8.1 is upgrading your Razer Blade & will restart several times during this process. This can take up to an hour for the upgrade to complete.

Step 8: Welcome back to Windows. Please go through the OS registration process again.

License terms

Please read this so you know what you're agreeing to.

MICROSOFT SOFTWARE LICENSE AGREEMENT WITH COMPUTER MANUFACTURER OR SOFTWARE INSTALLER, OR MICROSOFT

WINDOWS 8.1

Thank you for choosing a computer preinstalled with, or updating to, Microsoft Windows 8.1. This is a license agreement between you and the computer manufacturer or software installer that distributes Windows 0.1 with your computer; if you first obtain this software as an update to Windows 8 via the Windows Store, this is an agreement between you and Microsoft Corporation (or, based on where you live, one of its affiliates) instead. This agreement describes your rights to use the Windows 8.1 software. For your convenience, we've organized this agreement into two parts. The first part includes introductory terms phrased in a question and answer format; the Additional Terms and Limited Warranty follow and contain greater detail. You should review the entire agreement, including any linked terms, because all of the terms are important and together create this contract that applies to you. You can review linked terms by pasting the forward link into your browser window once the software is running. **The Additional Terms contain a binding arbitration clause and class action waiver. If you live in the United States, these affect your rights to resolve a dispute with the computer manufacturer or software installer, or with Microsoft, so you should read them carefully.**

By accepting this agreement or using the software, you agree to all of these terms and consent to the transmission of certain information during activation and for Internet-based features of the software. If you do not accept and comply with these terms, you may not use the software or its features. You may contact the manufacturer or installer to determine its return policy and return the software or computer for a refund or credit under that policy. You must comply with that policy, which might require you to return the software with the entire computer on which the software is installed for a refund or credit, if any.

How can I use the software? The software is licensed, not sold. Under this license agreement, we grant you the right to install and run one copy on the computer on which you acquired the software (the licensed computer), for use by one person at a time, but only if you comply with all the terms of this agreement. The software is not licensed to be used as server software or for commercial hosting, so you may not make the software available for simultaneous use by multiple users over a network. For more information on multiple user scenarios and virtualization, see the Additional Terms.

May I make a backup copy? Yes, you may make a single copy of the software for backup purposes, and use that backup copy as described below.

Can I transfer the software to another user? You may transfer the software directly to another user, only with the licensed computer. The transfer must include the software, proof of purchase, and, if provided with the

Step 9: Once you boot into the desktop, uninstall NVidia Video driver that comes with Windows 8.1. Go to Device Manager → Display Adapters → NVidia GeForce GTX 765M, right click and select uninstall. Check "Delete the driver software for this device" then restart the system.

Step 10: Please download and install the updated Windows 8.1 Drivers* and Razer Synapse. You can find the drivers at www.razersupport.com/downloads.

*Important Note:
o Win 8.1 Drivers
    Please install Windows drivers according to following sequence:
- ➔ Intel Chipset Driver
- ➔ Intel(R) RST
- ➔ Intel(R) Management Engine Interface
- ➔ Realtek High Definition Audio
- ➔ Dolby Digital Plus HT
- ➔ Nvidia GeForce GTX 765M
- ➔ Realtek PCIe GBE Family Controller (Please uninstall and reinstall with the latest version.)
- ➔ Killer Suite (Please uninstall and reinstall the Killer Suite driver again)

o Synapse
o Razer Comms

Now start Enjoying Windows 8.1.
