EDGE

Designed with gaming in mind, we focused on developing the most powerful tablet in the world that runs all PC games and applications. It's not just a tablet, but a PC and a console. The Razer Edge is the world's first tablet designed for PC gamers.

The latest Intel® Core™ i5/i7 processor and NVIDIA® GeForce® graphics are powering all of your favorite PC games and applications on a high definition multi-touch 10-inch display, in an ultra-portable form factor.

The Razer Edge elevates the gaming experience to all tablets out there. It's a Tablet, it's a PC, it's a Console. Pair the Razer Edge with the Razer Keyboard Dock to play any PC game out of the box, with the Gamepad Controller for mobile console gaming, or connect multiple gamepads to the Docking Station for a mobile or home console gaming experience.

SAFETY GUIDELINES

In order to achieve maximum safety while using your Gamepad Controller, we suggest that you adopt the following guidelines:

1. Should you have trouble operating the tablet properly and troubleshooting does not work, contact the Razer hotline or go to www.razersupport.com for support. Do not attempt to service or fix the device yourself at any time.
2. Do not take apart the device (doing so will void your warranty) and do not operate it under abnormal current loads.
3. Keep your device away from liquid, humidity or moisture. Operate your device only within the specified temperature range of 0°C (32°F) to 35°C (95°F). Should you operate it in a temperature that is beyond this range, unplug and switch off the device in order to let the temperature stabilize within the optimal temperature range.

MAINTENANCE AND USE

The Gamepad Controller requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device and clean it using a soft cloth or cotton swab with a bit of warm water to prevent dirt build-up. Do not use soap or harsh cleaning agents.
