SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer Forge TV, we suggest that you adopt the following guidelines:

1. Should you have trouble operating the device properly and troubleshooting does not work, contact the Razer hotline or go to **www.razersupport.com** for support. Do not attempt to service or fix the device yourself at any time.
2. Do not take apart the device (doing so will void your warranty) and do not operate it under abnormal current loads.
3. Keep your device away from liquid, humidity or moisture. Operate your device only within the specified temperature range of 0°C (32°F) to 35°C (95°F). Should you operate it in a temperature that is beyond this range, unplug and switch off the device in order to let the temperature stabilize within the optimal temperature range.

MAINTENANCE AND USE

The Razer Forge TV requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device and clean it using a soft cloth to prevent dirt build-up. Do not use soap or harsh cleaning agents.
