### System Requirements

- Bluetooth® wireless technology enabled PC / Mac computer
- Existing keyboard for setup

### Package Contents

- Razer ProClick™ Mobile Notebook Mouse
- Quick Start Guide
- Travel Pouch
- AA Battery x 2

## 1 Inserting the Batteries

You will find batteries for the mouse included in this package. Use only new batteries when replacing them in the future and change all of the batteries at the same time.

*Note: Please make sure that your Bluetooth software supports HID (Human Interface Device) profile before the pairing process.*

## 2 Pairing Process

**Note:** The pairing instruction herein is based on the Broadcom Bluetooth software. Please follow the instruction that comes with your Bluetooth software if you are not using Broadcom software.

### PC (Windows XP)

1. Press the Pairing/Reset button beneath the mouse.
2. Double-click on the 'My Bluetooth Places' icon from your Windows desktop to open the Bluetooth Manager.
3. Double-click on 'Search for device in range' to search all available Bluetooth devices.
4. The Bluetooth Mouse icon will be displayed in the window when found. Select 'ProClick Mobile' and then press 'Next' to continue.
5. The Bluetooth Setup Wizard will take several seconds to configure related files to your system. Press 'Finish' to complete the pairing process after the configuration.

### MAC (OSX 10.4.8)

1. Press the Pairing/Reset button beneath the mouse.
2. Click on the Apple Menu, followed by 'System Preferences'.
3. When a window pops up, click on the Bluetooth icon.
4. Under the 'Settings' tab, enable Bluetooth and check the 'Discoverable' box.
5. Under the 'Devices' tab, click on 'Set Up New Device' and follow the instructions of the Bluetooth Setup Assistant.
6. Once the ProClick™ Mobile is detected, highlight it and click 'Continue' to finish the process.

Once the connection between the ProClick™ Mobile and your computer is established, the connection is kept permanent. This means the connection to your mouse will be re-established automatically each time Windows XP or Mac OSX 10.4.8 runs.

### 3 LED Option

The Razer logo on the battery compartment cover will pulse after 10 seconds of inactivity. To deactivate the pulsing logo:

1. Press all three buttons of the ProClick™ Mobile simultaneously and hold for two seconds.
2. Release all three buttons.

Repeat the same steps to reactivate the pulsing logo.
