Step 7: At this point Windows 10 is upgrading your Razer Blade and will restart several times during this process. This can take up to an hour for the upgrade to complete.

Step 8: Welcome back to Windows. Please go through the OS registration process again.

Step 9: Please check your Intel Graphics Driver and NVidia Graphics driver in device manager. If Intel Graphics driver version is v10.18.15.4256 or higher and NVidia Graphics driver version is v10.18.13.5362 or higher, please skip step 10 and 11.

Step 10: Once you boot into the desktop, uninstall all NVidia Graphics driver components then restart the system.

Step 11: Uninstall Intel Graphics driver then restart the system one more time before proceed to the next step.

Step 12: Install the updated Windows 10 Drivers and applications that have been downloaded from <a href="https://www.razersupport.com/downloads">www.razersupport.com/downloads</a> in the following order:

- Intel Chipset Driver
- Intel Management Engine Driver
- Intel Rapid Storage Driver
- Intel Bluetooth Driver
- Intel Wi-Fi Driver
- Intel Graphics Driver (Skip if current Intel Graphics driver version is v10.18.15.4256 or higher)
- NVidia Graphics Driver (Skip if current NVidia Graphics driver version is v10.18.13.5362 or higher)

Step 13: Uninstall Realtek Audio driver that currently installed in the system then restart.

Step 14: Install Realtek Audio driver that was downloaded from <u>www.razersupport.com/downloads</u> then restart the system one more time.

Step 15: If Synaptic driver is downloaded and installed from Windows Update and your Synapse showing blank configurator, please reboot the system once then perform Synapse Update through Synapse Setting Page >> Check for Updates.

Now start Enjoying Windows 10.
